Specific skills

Node.js, React.js (ES6, Express, koa, socket.io, Mocha+chai, Ramda.js)

Clojure, ClojureScript (official contributor to Onyx, Bidi/Yada, contributed to Sablono)

Git, Redis, **mongoDB**, ElasticSearch, Ansible

Career and achievements

Current: **Freelance**, first Client: my previous employer, Go Find It

2015 – 2016: **Go Find It (Startup mobile apps)**, France (75) ▪ Clojure, Node.js, mongoDB, React.js, Stylus, Fabric
(11 months) Worked on the CMS with the CTO (back, front, database and operations), used by both internal teams (journalists, customer relationships, mobile developers) and clients (hotel managers)
Introduced Clojure in production, as well as new features like targeted push messaging.

2014 – 2015: **Yool (mobile app project)** ▪ Node.js, mongoDB, Clojure, ElasticSearch
Made the backend. Yool won the special prize at the #SWNA (Nantes Startup Weekend)

2014 – 2015: **Apizee (Startup web telecommunications)**, France (22) ▪ Node.js, WebRTC, Redis, Git, AWS
(15 months) Internship work primed at “Alcatel-Lucent Conversations - Dublin” and “IIR - Munich” in 2014.
The CEO also presented it during the Mobile World Congress in Barcelona on HP’s stand.
Designed a new publish/subscribe architecture to scale the internal WebRTC server.
Delivered a full-stack web app for a CAC40 company (statistical computation about IaaS providers).

2012: **Siléane (SMB robotics)**, France (42) ▪ C#, WPF, KinectSDK, SVN
(2 months) Prototyped a natural user interface for a robotic arm, to allow a new product line to be launched.

2010: **Dassault (Avionics)**, France (74) ▪ LabView, compactDAQ
(3 months) Internship in the flight control electronics production line (hardware choice, delivery and presentation).

Education

2011 – 2014: **« Diplôme d’ingénieur » (Master’s) in Software engineering** at the ENSSAT in Lannion (France)
Ranked 3rd of the class. Erasmus exchange in the « Fachhoschule Rosenheim » (Germany).

2010 – 2011: **BEng in Electronic and Computer Engineering** from Edinburgh Napier University
Class medal winner.

Langages and management

English: bilingual – scored 79/100 on the Cambridge CAE (2013)
German and Spanish: working knowledge – attended master informatics classes taught in German

2013 – 2014: **Master business classes** from the « Fachhoschule Rosenheim » (I was the only engineering student).

2012 – 2013: **French Britany Robotic Cup** (3000 visitors): logistics team, responsible for the sustainability aspect
